

TRUE NORTH

Freight forwarder

A practical vision of international trade

ABOUT US

A flexible and dynamic Company. We connect the world by shipping your products to where they are needed. With relevant and proven ideas and solutions. We let our experience speak for us.

WHY CHOOSE US?

We are convinced that solutions should be global. By assessing conditions for each client, we can offer tailor-made solutions.

A global service means giving you the solutions you are looking for.

We are professionals and experienced. This is what we wish to share with you.

The background features several thick, diagonal bars in green and dark blue, creating a modern, geometric design.

Safe and reliable cargo solutions.

A full range of services for door to door services and cargo.

For us, a full range of services means fulfilling your needs. All in one place.

SEA FREIGHT

The best possible solutions for Full Container Load (FCL) as well as for Less than Container Load (LCL).

AIR FREIGHT

Quick. Safe. Accurate. Connection.
We offer status and location information through tracking systems.

ROAD FREIGHT

Full loaded or consolidated truck service, we make sure cargoes move fast and arrive on time where expected.

PROJECT CARGO

Our proactive and innovative vision allows us to offer logistic and transport solutions within the Oil & Gas and Energy industries.

SEA / AIR FREIGHT

This is the best alternative to connect China with Southamerica, by combining sea, ground, and air transport. Why is it more convenient? This mutlimodal service option, considerably reduces transit time, at a lower cost, to that of air freight. This is ideal for LCL/LCL freights requiring a prompt service and that bear a slightly higher cost than that of sea freight. Also for air freight that need cost reductions in exchange for a longer trip.

SERVICIFOREIGN TRADE LOGISTICS SERVICES

Alliances are essential. Through them we build up networks enabling us to offer services related to Foreign Trade: tax deposits, customs clearance, international insurance, special packaging and cargo custody.

EASY AND COMPREHENSIBLE COMMUNICATION

We analyze, develop, and implement successful strategies in handling cargo transport from beginning to end.

EXPERIENCE AND QUALITY RESPONSE

We throw light on those complex actions involving international trade, in particular international transport of goods, evaluating and executing, coming up with solutions.
